JAMES W. BASCOM,	
CHARLES A. JEFTS,	

This certifies that I have this day examined the accounts of the School Board and Treasurer of the Langdon School District and find them correctly cast and properly vouched.

CHARLES WINCH, Auditor of the District.

Langdon, N. H., Feb. 15, 1906.

Report of the Superintendent of Schools

TO THE SCHOOL BOARD AND CITIZENS OF LANGDON, N. H.:

I wish to submit the following report of the Langdon schools.

TEACHERS

Our teachers have worked faithfully and used their best energies and ability for the best interests of the schools. There has been no change of teachers in our schools during the past year, except in the Centre school.

The best results can be secured when the teacher's service is continuous. We have been most highly favored with the good work of most excellent teachers during the last term especially. It is indeed a sad mistake to let a few dollars on salary stand in the way of securing the best teachers. It is much better economy to pay a little more for a good teacher than to throw away the whole amount on a school with an inefficient teacher. Our school board realize this and are endeavoring to secure the best teachers. It may be necessary to make some changes in teachers next spring, as some of the former teachers are worth more salary than the school appropriation provides for, but we shall endeavor to get the best to fill the places of those who do not return.

The kind of teacher our schools need is one who has the best training for her work, and who is an enthusiastic worker and will continually grow in her profession. When a teacher ceases to grow, and feels that she can learn no more, she is useless.

The schools have been a decided success, and the work has greatly improved during the past year.

It has been very encouraging to note the support and help which the parents have given the teachers and schools. It is most unwise for the interests of the school, that parents should find fault with the teacher and school, or to uphold children in rebellion to the regulations of the school. The very best teacher cannot succeed without the support of the citizens.

ATTENDANCE

The most discouraging feature for the success of our schools is the poor attendance. No pupil can make progress if he does not regularly attend school. The records show a little better attendance than in previous years, but it is not at all satisfactory.

The business man who succeeds must attend faithfully to his business. Attending school is the business of the children of school age. If our children are to become successful, it is just the training they need, that they must attend to their business, going to school. You should not expect your child to succeed if he is absent one to three days a week.

We have tried giving certificates to induce better attendance and it has been a great inspiration to a better record. Legally and morally the parents or guardians are responsible for the attendance of the scholars.

I recommend that every reasonable and legal means be used to secure better attendance during the coming year.

GRADING AND COURSE OF STUDY

Our present written course of study does not quite meet the demands of the present school standard, so we have been trying to do a little more work than it requires.

The aim of our work is to give these country boys and girls a thorough practical education which will best fit them for the needs of life.

Everything is done differently now than twenty-five or fifty years ago, hence our system of education must be different, yet we may be too radical and not think the "old days" had anything good. The educational training of today tries to work in the sensible medium.

TEXT BOOK AND SUPPLIES

But little has been spent this year on books and supplies.

As the old spellers were completely out of date and use, we bought new spellers for the town, a matter of small expense. Our schools are much in need of additional readers and new history and language books.

BUILDINGS

The school buildings and surroundings need some improvements for sanitary reasons.

CONSOLIDATION

I am never in favor of urging consolidation of schools unless the majority of voters of the district are in favor of it, yet from an educational standpoint it is always best to unite and grade schools as far as possible, as much better work can be done. In my opinion it is unwise to maintain a school at Cold River for only four pupils. There are too many grades at the Centre school, for the best work to be accomplished.

All things considered I am confident that the schools of Langdon are progressing, and much credit is due the faithful teachers, as well as school officers and citizens.

I wish to express my appreciation of the cordial support of the school board, the earnest co-operation of the teachers and the interest of the citizens in general. I have not been able to get acquainted as much as I wished, as the pressing duties of my work do not give me the opportunity, but I assure you that my whole interest is for the success of your schools and the welfare of your children. Let us, as teachers, school officers and citizens, put forth every effort to make, as far as possible, the schools of Langdon equal to the best schools of our country.

Respectfully submitted,

C. H. DROWN, Superintendent of Schools.

VITAL STATISTICS

In compliance with an Act of the Legislature passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of the births, marriages and deaths to the municipal officers for publication in the Annual Report," we submit the following:

Births Registered in the Town of Langdon, New Hampshire, for the Year Ending December 31, 1905.

Date, 1905	Name of child (if any)	Sex and Condition			Name of Father	Maiden Name of Mother	Parents' Color	Residence of Parents	Occupation of Father	Birthplace and age of Father	Birthplace and age of Mother
